State

Beyond Random Acts of Partnership.....	117
Engaging Immigrant Families in Education	118

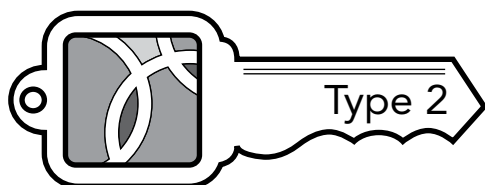

Epstein's Six Types of Involvement

Keys to Successful School, Family, and Community Partnerships

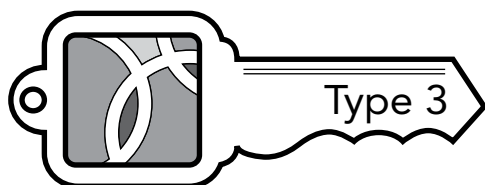

Parenting

Assist families in understanding child and adolescent development and in setting home conditions that support children as students at each grade level. Assist schools in understanding families.

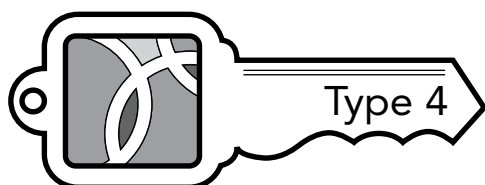

Communicating

Communicate with families about school programs and student progress through effective school-to-home and home-to-school communications.

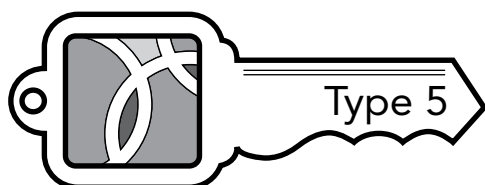

Volunteering

Improve recruitment, training, and schedules to involve families as volunteers and audiences at the school and in other locations to support students and school programs.

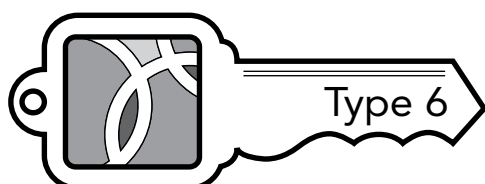

Learning at Home

Involve families with their children in learning at home, including homework, other curriculum-related activities, and individual course and program decisions.

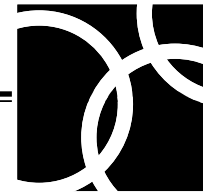

Decision Making

Include families as participants in school decisions, governance, and advocacy through PTA/PTO, school councils, committees, action teams, and other parent organizations.

Collaborating with the Community

Coordinate community resources and services for students, families, and the school with businesses, agencies, and other groups, and provide services to the community.

Type 1: Parenting

BBES Supports Our Military Families	71
